---

## PROJECTS

### Amazon Clone Website

<https://prashant-2000.github.io/Amazon-Clone-Website/> • July 2023 - August 2023

- This is amazon clone website
- Technology Used : HTML and CSS
- It is exactly looks like amazon

### Online Meal Website

<https://prashant-2000.github.io/Onlinemeal.com/> • September 2021 - August 2021

- I have designed website using HTML, CSS and JavaScript. It is a website which have four sections Home, Services, Clients, Contact us. Basically this shows how Food order websites look like
- It is responsive website that is optimized for both mobile and desktop devices, able to load quickly and accurately for users.
- It was tested on various devices which yielded successful results. The loading time of the website was reduced by 25% and its page views increased by 30%.
